Notice No. 03-25

Date: July 8, 2003

Hannibal Locks and Dam, Ohio River, Mile 126.4
Replace Middle Wall Filling Valve and
Renovate Operating Machinery

1. TO ALL WHOM IT MAY CONCERN: Notice is given that the U.S. Army Corps of Engineers' Repair Fleet will replace the middle wall filling valve and renovate the operating machinery in the 110' x 1200' river chamber at Hannibal Locks and Dam, Ohio River. Work is scheduled to begin 8:00 AM on July 22, 2003 and will be completed by 11:00 PM on August 9, 2003. (Note: This is a change from Navigation Notice No. 02-50. This job was originally scheduled for the period August 4 through August 22, 2003.)
2. The 110' x 600' land chamber will be closed to all navigation during this work period. The 110' x 1200' river chamber will be available to navigation during the work period. Intermittent delays to navigation are expected.
3. General wear and deterioration of this valve has made it necessary to schedule this work.
4. Navigators please note the location and duration of this work and use caution when entering and leaving the lock chamber.

FOR THE DISTRICT ENGINEER:

James J. Rockovich, P.E.
for James J. Edinger, P.E.
Chief, Operations and
Readiness Division
